Easy to use

Image Converter Plus software is an amazing combination of simplicity and professional results of the highest quality. It is very easy to work with no matter what level of experience one may have. Once installed, the user-friendly menu gives you the power to quickly convert images from one file format to another. Users only have to point the file to convert, right click to select the format desired and choose the destination folder of the new file. It is that simple! Need to convert multiple files at once? Thanks to Image Converter Plus batch mode function this is now easy and efficient with just a few clicks of the mouse.

Time efficient

The efficiency of your business depends on the effectiveness of your time management. Image Converter Plus helps you accomplish the most important task achieve the best results in minimal time. The ability to convert files according to custom profiles simplifies your work and makes your business process faster, clear-cut and continuous. Using profiles automates the sequence of complex consecutive actions applied to image files, sparing the user from performing the tedious duplication of steps typically involved in image conversion. Convenient user interface will let you save a profile with a new name of your choice. All you have to do next time is to select the profile you need, and to let Image Converter Plus do even the most complicated conversion job automatically. Flawless result is guaranteed.

Error free result

We strive for perfection in our work. Error free result is one of the main advantages of the program. Image Converter Plus supports more than 200 formats and more than 800 format dialects. Regardless of the file source website, e-mail, digital camera etc. - you can be sure that your file will be converted and saved correctly. When using your own profile of file conversion, you are protected from any errors. Image Converter Plus will perform the task exactly as specified. Converting files in batch mode also guarantees flawless results on each item within the batch. There is no need to process each file separately in the routine way. Image Converter Plus will quickly and accurately convert a huge batch of files exactly the way you need!

Image Converter Plus supports conversion of a vast variety of raster formats.
